WE MOVE PROFESSIONALS

Bohnenkamp is your strong partner for tyres, wheels, rims, tubes, vehicle components and accessories for professional use.

Founded as a regional trading company for vehicle components, the Bohnenkamp Group now moves professionals throughout Europe. In doing so, we have always retained the character of a family-run, medium-sized company.

Comprehensive consulting, reliable service and a close relationship with our customers have always been at the heart of our thinking and actions.

AGRICULTURE & FORESTRY

EARTHMOVING

Our product range includes tyres, wheels and components for almost all vehicles and machines in the areas of agriculture and forestry, earthmoving, industry, trucks and transport, as well as for small and special vehicles.

TRUCK & TRANSPORT

INDUSTRIAL

SMALL VEHICLES

As a wholesaler, we rely 100% on specialist dealers and manufacturers. We support you with our experts, in both fleet and user advice, as well as in the development of special solutions for the initial equipment installation.

Through continuous dialogue with dealers and users in the various industries, we are able to react quickly and flexibly to new requirements. On this basis, we continually develop our product range and service for the different fields of application.

Bohnenkamp milestones:

- 1950** Friedel Bohnenkamp founds the company
- 1974** Relocation to today's location
- 1992** Foundation of the subsidiary in Kletzin
- 2000** Foundation of the subsidiary in Landshut
- 2005** Foundation of Bohnenkamp s.r.o. (Slovakia)
- 2010** Takeover of the Bohnenkamp Benelux B.V. (Netherlands)

Bohnenkamp Group, as at 2017 (turnover: as at 2016)

- 2012** Opening of the new logistics centre Osnabrück (NELOS)
- 2014** Opening of own business and logistics location in Switzerland (Ormalingen)
- 2015** Opening of own business and logistics location in Austria (Hörsching)
- 2016** Takeover of the small tyre specialist STARCO's trading business including the branches in Scandinavia and Eastern Europe

Within a few decades from a regional trading company to a Europe-wide leading wholesale group.

In 1950, Friedel Bohnenkamp founds a company in the Osnabrück district of Fledder for the trade in vehicle components. This leads to a development that turns Bohnenkamp from a regional trading company into a Europe-wide leading, ISO-certified wholesale group for tyres and wheels for professional use.

Central warehouse Osnabrück

Bohnenkamp has grown steadily since the company moved to its current location in the industrial area of Atter. With new locations and branches in Germany and in other European countries, an efficient sales and logistics network has been created, which ensures optimum on-site support.

With the establishment of the Friedel & Gisela Bohnenkamp Foundation in 2008, Bohnenkamp is increasingly assuming social responsibility for the people of the region. The foundation initiates and supports innovative educational projects in the Osnabrück region and is the main shareholder of the Bohnenkamp Group.

The opening of the new logistics centre in Osnabrück in 2012 and the expansion into the main logistics centre for the entire group were important milestones in our success story. The latest chapter is the development of markets in Northern and Eastern Europe. With the takeover of the STARCO trading business in 2016, we have taken another important step towards the future.

OUR LOCALLY AVAILABLE EXPERTS

ALWAYS AT EYE LEVEL

We are at home in the world of our customers. And on site in 28 countries throughout Europe.

Partnership, product availability, competence, customer proximity - these have always been the pillars of our company philosophy. In order to meet the growing demands of our customers in the future, we are continually expanding our European-wide location and distribution network.

ON-SITE SERVICE

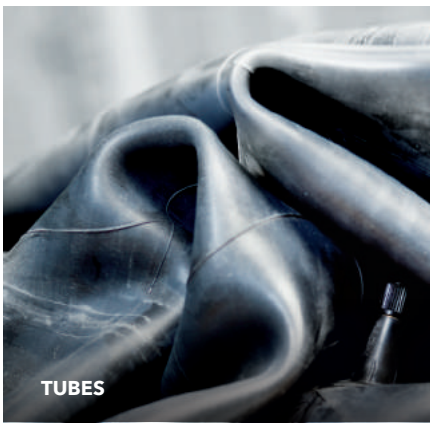

We are directly on-site throughout the sales area by means of a comprehensive network of 25 locations for 28 countries. In our regionally independent national subsidiaries and sales offices, our customers have more than 50 employees available to them for advice and assistance.

Over 100 experts provide comprehensive telephone advice in the respective national language.

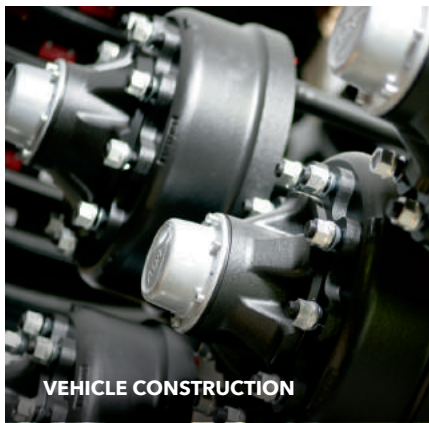

In addition, specialists are available in aftersales service and for the support of professional consumers.

We guarantee customer proximity - from the service on-site to the country-specific online shop.

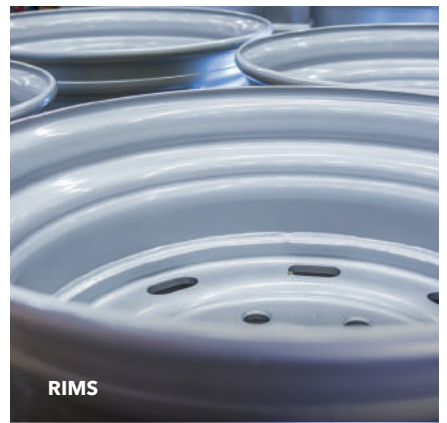

A WELL-ROUNDED RANGE

TUBES

VEHICLE CONSTRUCTION

RIMS

We are in our element underneath the vehicle. From the standard product to tailor-made special developments.

For many years we have been cooperating with leading producers from all over the world. This way, our customers can find the right product for every quality requirement and application.

Whether it is a tyre or a complete wheel, whether it is a tube, a rim or a vehicle component, whether a standard product or a special development for new machines, our products convince through performance and reliability, long service life and economy.

We support vehicle and machine manufacturers as partners on an equal footing and offer solutions in ISO-certified OEM quality. With our service from the development phase to the just-in-time delivery of small and large quantities, we are always available as experts at the service of our customers.

This also applies to our vehicle components services. We supply accessories specially adapted to the vehicle and the wheels: from individual axle components to complete assemblies for trailers and special machines.

WHEELS

TYRES

A man with short brown hair and glasses is sitting in the driver's seat of a vehicle. He is wearing a dark blue jacket with orange safety accents. The background shows the interior of the vehicle, including a blue circular light fixture on the ceiling and various mechanical components. The overall scene is brightly lit, suggesting an indoor or well-lit outdoor environment.

EMPLOYEES WITH COMPETENCE

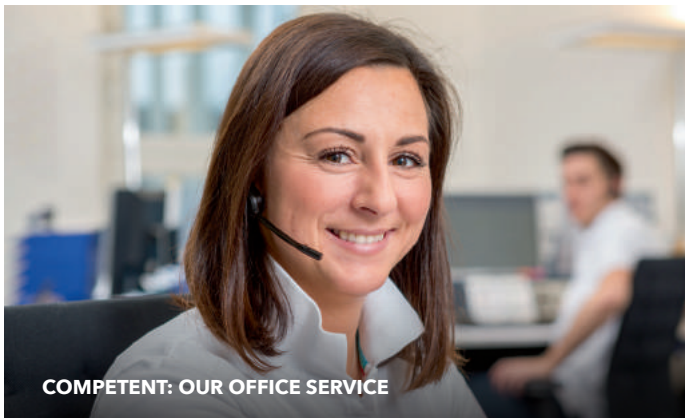

Competent, reliable and at eye level. Our employees are there for you with both experience and passion.

Our internal and external teams have practical experience and a strong passion for truly round solutions. Thanks to clear corporate structures and direct decision-making processes, they are always in a position to take responsibility and react quickly.

With a certified trainee programme and continuous training, we ensure that our employees are up-to-date

at all times and are able to develop themselves professionally and personally. The above-average length of service shows that we are on the right track.

Our experts are supported by our online shop and our app, through which the trade has access to the entire range and all technical data around the clock.

RELIABLE LOGISTICS

**The right product at the right time.
State-of-the-art storage and transport logistics
guarantee optimum delivery reliability.**

As a Bohnenkamp customer, you can rely on highest product availability and reliability of delivery. With more than one million items in our warehouse, more than 130,000 sqm of warehouse space throughout Europe, as well as modern, networked storage and transport logistics, we deliver ordered products on time to the destination.

Everyday we receive goods from all over the world, annually more than 85,000 tons. We can make the ordered products available to our customers immediately after receipt in our warehouses.

At our own assembly sites, we assemble up to 800 3-52 inch wheels per day quickly and professionally, from simple wheelbarrow wheels to complete wheels for tractors and snap-ring mounting for earthmoving and industrial tyres. In the field of flotation, we are the only supplier in Europe to offer a fully optimised assembly of all delivered wheels.

In the end, our warehouse system deals with day-to-day delivery service and the cooperation with selected logistics service providers, which create the conditions for each product to be delivered precisely when it is needed - usually as fast as next day.

WE MOVE PROFESSIONALS.

**In everything we do, the focus is always on retailers and manufacturers' success.
Now and in the future.**

The name Bohnenkamp has always stood for expertise, experience, cooperation and a deep understanding of the challenges and working environments of our customers.

In the aftersales business, we support tyre dealers, agricultural machinery traders and workshops with everything they need: a comprehensive product range, high availability, Europe-wide service, personal advice, individual solutions and timely delivery.

We support machine manufacturers with a personal consulting team, from development and technical documentation to just-in-time delivery.

Thanks to our internal quality management and ISO-certified sites, we guarantee the highest service standards to all customers at every stage.

BECAUSE - WE MOVE PROFESSIONALS.
